

New state-of-the-art production facility for Eurotherm in Tychy, Poland

- Eurotherm manufacturing facility in Tychy, Poland will be moving to a new state-of-the-art plant location in August 2021.
- The new facility meets sustainability criteria confirmed by BREEAM certification.
- The company will continue to carry out its manufacturing operations in Tychy and therefore retain its highly skilled team.

16th August 2021 - Eurotherm by Schneider Electric™ announces that its manufacturing facility in Tychy, Poland is moving to a new state-of-the-art plant location. The relocation of the warehouse and production lines will be completed by September 19th, 2021.

Larger, improved and more sustainable production facility

The new production plant will streamline the company's manufacturing capability and expand its production capacity to meet the growing, worldwide demand for Eurotherm portfolio. The production facility meets sustainability criteria confirmed by BREEAM certification as well as providing more space, with improved production and warehouse facilities, and additional offices for staff.

Retaining the highly skilled Eurotherm team in Tychy

The new manufacturing facility is located just 5 kilometers away from the current location, allowing Eurotherm employees in Tychy, Poland to continue working for the company.

“We are very excited to expand to a new, more sustainable facility. We are proud to continue our manufacturing operations in Tychy (Poland) and thereby retain our excellent, highly skilled team” commented Chris Ashworth, VP & MD of Eurotherm. *“The move will improve our production, support our continuing growth, and better position the company for the introduction of new products, while maximizing service levels to our customers”.*

During the plant move, the company remains confident that the team will continue to provide the best possible delivery service to the global customers and partners of Eurotherm.

About Schneider Electric

At Schneider, we believe **access to energy and digital** is a basic human right. We empower all to **make the most of their energy and resources**, ensuring **Life Is On** everywhere, for everyone, at every moment.
